

include/ttak/sync/sync.h

```
graph TD; A[include/ttak/sync/sync.h] --> B[pthread.h]; A --> C[stdint.h];
```

The diagram illustrates the preprocessor directives within the file `include/ttak/sync/sync.h`. Two blue arrows originate from the bottom of the top box and point to the boxes below. The left arrow points to `pthread.h`, which is contained in a white box with a black border. The right arrow points to `stdint.h`, which is contained in a gray box with a black border.

pthread.h

stdint.h
