

include/ttak/security
/sha256.h

```
graph TD; A["include/ttak/security/sha256.h"] --> B["stddef.h"]; A --> C["stdint.h"]
```

The diagram illustrates a header file dependency. A top box labeled 'include/ttak/security/sha256.h' has two blue arrows pointing downwards to two separate boxes below it, labeled 'stddef.h' and 'stdint.h'. This indicates that the top header file includes both of these standard C headers.
