

```
graph BT; session["include/ttak/net/session.h"] --> endpoint["include/ttak/net/endpoint.h"]; view["include/ttak/net/view.h"] --> endpoint;
```

include/ttak/net/endpoint.h

The diagram illustrates the include relationships between three header files. At the top is a grey box containing the text 'include/ttak/net/endpoint.h'. Below it are two white boxes: 'include/ttak/net/session.h' on the left and 'include/ttak/net/view.h' on the right. Two blue arrows point from the top of the session.h box to the bottom of the endpoint.h box, and another two blue arrows point from the top of the view.h box to the bottom of the endpoint.h box, indicating that both session.h and view.h include endpoint.h.
